

Product Sustainability & LEED Data

This form includes the most current and accurate sustainability data available to support LEED and other green building programs. It should be referenced in conjunction with the Health Product Declaration, available at hpdcollaborative.org.

Product Information

Product Name:
Application:
Manufacturing Location:
Date:

General Green Building Data

Recycled Content —Percentage of finished product by weight			
Pre-consumer:	%	Post-consumer:	%

Regional Materials —Source location/point of extraction of raw materials for major components		
INGREDIENT	POINT OF EXTRACTION (CITY, STATE, COUNTRY)	% BY WEIGHT
		%
		%
		%
		%
		%

Rapidly Renewable (Bio-based) Materials —Materials typically harvested within a 10-year cycle						
BIO-BASED MATERIAL	% BY WEIGHT	ASTM D6866			SUST. AGRICULTURE NWK.	
	%	Yes	No	N/A	Yes	No
	%	Yes	No	N/A	Yes	No

Certified Wood —Wood-based material certified by Forest Stewardship Council or other organization			
WOOD-BASED MATERIAL	CERTIFICATION BODY	% NEW WOOD BY WEIGHT	% FSC BY WEIGHT
		%	%

LEED 2009*

Indoor Environmental Quality—Low-Emitting Materials: VOCs			
IEQ 4.2—Paints and Coatings (g/L):	Compliant	Not Compliant	N/A
IEQ 4.4—Composite Wood and Agrifiber Products (g/L):	NAUF	Not Compliant	N/A
IEQ 4.6—Ceiling and Wall Systems	Meets Cal 01350/CHPS	Not Compliant	N/A

For Healthcare and Schools

LEED v4*

MR Credit 2: Building Product Disclosure and Optimization—Environmental Product Declaration(s)		
Option 1—EPD Program Operator:	N/A	
EPD Type:		
Option 2—Third Party Certification Program:	N/A	
1:	2:	3:

*Refer to "General Green Building Data" (above) and the Health Product Declaration for additional attributes.

LEED v4* (cont.)

MR Credit 3: Building Product Disclosure and Optimization—Sourcing of Raw Materials				
Option 1—Sustainability Report Type:				N/A
Option 2—Extended Producer Responsibility Program:				N/A
<i>See previous page for information on Recycled Content, Bio-based Materials, and Certified Wood</i>				

MR Credit 4: Building Product Disclosure and Optimization—Material Ingredients				
Option 1—Report Type:				N/A
Option 2—Documentation Program:				N/A
Option 3—Verification Body:				N/A

For Healthcare Projects

MR Credit 6: PBT Source Reduction—Lead, Cadmium, and Copper				
		Compliant	Not Compliant	N/A

For Healthcare Projects

MR Credit 7: Furniture and Medical Furnishings				
Option 1—Minimal Chemical Content (<100 ppm in at least four categories):				N/A
1:	2:	3:	4:	
Option 2—Testing and Modeling Chemical Content			Yes	No
Option 3—Multi-attribute Assessment of Products (see data above)			Yes	No

EQ Credit 2: Low-Emitting Materials: VOCs (g/L)				
General Emissions Evaluation Criteria:			Not Compliant	N/A
VOC Content Regulation:				
Allowable VOCs (g/L):		Product VOCs (g/L):		

EQ Credit 9: Acoustic Performance				
Acoustical Properties:				N/A

OPTIONAL INFO:

Living Building Challenge*

Materials: Red List	Compliant	Not Compliant	Temporary Exemption	
Materials: Responsible Industry			Yes	No
Materials: Appropriate Sourcing	<i>see Mill Address on previous page</i>			

Manufacturing Facility

ISO 14001 certified	ISO 9001 certified	Annual carbon offsets purchased (%):		
Other certification(s):				
Water intensity (gal/unit):		Energy intensity (kWh/unit):		
Annual renewable energy credits purchased (%):				

Other Attributes

NSF/ANSI 336 certified—Level:		NSF/ANSI 342 certified—Level:		
Recycled content in packaging (%):		Packaging is recyclable	Yes	No
Additional environmental/health info:				
Environmentally preferable product maintenance:				

*Refer to "General Green Building Data" (previous page) and the Health Product Declaration for additional attributes.
